Aaron Roberts

roberts.am@outlook.com   www.aaronroberts.dev   07873293823   London, United Kingdom

I am currently looking for work in Front-End Web Development. I have recently just come back from travelling but I previously worked in professional football for Barnet FC as First Team Analyst where I would work closely with management and player staff. I am familiar with strong team environments and being apart of working towards a common goal.

My strengths include creating web based products that have responsive layouts and organised code using industry standard tools. I have experience in creating graphics and presentations needing to communicate information in clear and simple ways. Learning new skills and tools is something I am always willing to do and have done in past experiences.

Skills

- HMTL
- CSS
- Javascript
- SASS

- Responsive design
- VS code
- Git
- Github

- Figma
- See projects I have made: www.aaronroberts.dev

Experience
